

EPOS

Why EPOS?
Cheat Sheet

Choosing the Right Audio or Video Solution

Customers and prospects want to know:

“What do I gain by choosing EPOS?”
Now, this handy guide gives you all the product USPs and supporting features needed to answer that question, at-a-glance.

It has never been easier to say what makes us different and win sales by helping customers and prospects make the right choice: EPOS.

What Solution do You Need?

IMPACT Line

Headset solutions for professionals working in energetic call center and office environments, spending many hours at or around their desks talking with customers.

ADAPT Line

Headset solutions for professionals working away from their desks, participating in meetings or calls or working remotely from other locations.

EXPAND Line

Flexible, plug-and-play, video and audio conferencing solutions for professionals working collaboratively with in-room and remote participants.

What Devices do You Use?

You need your devices to work seamlessly with your headset, speakerphone, or video collaboration bar. It's that simple. All our audio and video solutions are designed for seamless compatibility. For headsets, check our headset compatibility guide at: eposaudio.com/compatibility

Softphone/PC

Connection via USB/USB-C cable or USB dongle (Bluetooth®) to Microsoft Windows or Apple Mac OS.

Screen/monitor

Connection via HDMI or USB-C display port.

Desk phone

Connection with multiple types of cables via Easy Disconnect.

Mobile phone/tablet

Connection via Bluetooth® or 3.5 mm jack cable.

Telecoil

Works with standard telecoil-equipped hearing aids.

Microsoft Teams Rooms

Only for Microsoft Teams Rooms on Windows compute unit.

Single or Double-sided Headsets?

Single-sided

Ideal for situations where you need to both hear your caller clearly and pay attention to what's going on around you.

Double-sided

Delivers calls in quality sound while reducing background noise – ideal for contact centers, where you need to focus solely on your caller.

What Size is Your Meeting Room?

The size of your meeting room determines the conferencing solution you need. EPOS has a range of speakerphones and video collaboration bars that have been designed for different meeting setups including personal workspace, huddle rooms, and small, medium, and large-sized meeting rooms.

How Noisy is Your Workplace?

In busy workplaces noise-cancelling microphones are vital so that your caller can hear you clearly. EPOS Voice™ technology makes sure your voice is heard in challenging sound environments.

Low noise environment

Omni-directional microphone.

Medium noise environment

Noise-cancelling microphone.

High noise environment

Ultra noise-cancelling microphone.

How to manage your devices?

EPOS Manager is a powerful IT management solution that enables IT managers to manage, update and configure settings for EPOS headsets and speakerphones within an organization from any location.

EPOS Connect is a client application that can be installed on a thick client as well as on a thin client. It gives the end user access to the latest audio device firmware updates and personalized audio device settings.

Unified Communications

UC optimized for all leading UC and softphone brands

Certified for Google Meet

Certified for Microsoft Teams

Certified for Alcatel Lucent
