Upgrade to the compact, durable, & all-in-one Versity 9240 smartphone

Does your mobile workforce need a better option for collaboration and communication?

Look no further than the sleek, and award winning Versity 9240 enterprise-grade smartphone. With native voice, messaging, conferencing, Push-to-Talk, employee safety application, and integration with a world-class ecosystem of applications partners to ensure the support of your mobile worker and customer's needs. Ideal for retail associates or non-clinical healthcare workers, like patient transporters, who need a small device that easily fits in their hand or pocket. The Versity 9240 smartphone delivers the latest technology in enterprise mobility along with Spectralink's industry leading voice quality at a price point that allows organizations to provide voice, data, and applications to more of their team members.

Maximize your communication investment and empower your mobile workforce with the Versity 9240 smartphone.

For every three Versity 9240s purchased, you will receive one Versity 9240 FREE

- Cannot be combined with any other discounts or incentives.
- Minimum purchase of 50 Versity 9240s.
- Offer available for North America from November 1, 2021 - June 30, 2022.
- Customers must purchase SpectraCare or SpectraCare+ on free handsets at time of purchase.
