

iPhone Scanner Jacket

RUGGEDIZED IPHONE

A ruggedized exterior and optional hand strap will keep you iPhone safe from accidental drops

ENTERPRISE SCANNING

A built-in 2D barcode scan engine ensures quick, accurate scanning for all types of barcodes

RFID

Support for RFID scanning turns your iPhone into a truly mobile, universal data collection device

BUILT IN BATTERY

Powering both RFID and 2D scanning from the built in battery allows you to add these powerful functions without sacrificing battery life

The iSAPPOS iPhone scanner jacket can quickly turn your iPhone into a professional mobile data collection device. It's sleek yet rugged design secures your iPhone without limiting any of the iPhone functionality. With support for both 1D and 2D barcodes, plus RFID, the iSAPPOS iPhone scanner jacket is the perfect solution for today's data driven world.

NOTE: The iSAPPOS iPhone Scanner jacket requires software integration to function. Please contact your software supplier to ensure compatibility.
