Why HaaS?

No Unexpected Hardware Expenses
If a piece of hardware goes bad, it gets replaced with its original configuration and delivered the next business day.

No Major Up-Front Costs
You can avoid the major upfront costs of purchasing all the hardware you need at once.

Downtime Reduced
Rest easy knowing downtimes due to device failure and maintenance will be significantly reduced.

Simple Management
NAll assets and reverse logistics are completely managed on your behalf.

Cost Predictability
Fixed monthly payments are predictable. The expense can be easily planned and budgeted for.

The Tax Impact
Turn your payment hardware costs from a capital investment to an operational expense with Hardware as a Service.
