## Comcast Business Internet Solutions

Deliver unrelenting speed to your medical office, with automatic 4G LTE backup for complete reliability and advanced WiFi to keep patients connected.

### Keep Patients and Employees Connected with WiFi Pro

Let patients connect to social media and the internet for free while they wait. Provide tablet-based check-in, check-out and form preparation. Maintain upload/download speeds and keep sensitive patient data secure with separate office and visitor connections.

### Improve Productivity with Fast and Reliable Internet on the Gig-Speed Network

Quickly transmit and download large files, images and patient device data. Conduct video-based remote diagnosis and consultation. Let patients schedule appointments and check lab results via email or online portals. Maintain security with built-in firewall protections and static IP configurations.

### Maintain Continuity with Connection Pro

Maintain continuous access to critical patient data and telehealth systems in the event of a power outage or unforeseen circumstances with 4G LTE wireless backup.

### Keep Patients Entertained with Comcast Business TV

Enhance your patient's waiting experience by offering live TV. Find the right programming easier than ever with X1 for Business. View live TV on any screen – mobile, tablet or desktop – with Xfinity Stream from Comcast Business.

### Ensure Peace of Mind with Comcast Business SmartOffice™

Keep an eye on your office and critical supplies from anywhere, on any device, with an advanced video monitoring solution.

### Be Anywhere with Comcast Business Voice Solutions

Ensure that patient and colleague calls come through reliably and clearly. Make and receive business line calls after hours from anywhere with your mobile phone. Advanced features let you create a customized greeting and easily route incoming calls.
