

# Technology Doesn't Stop. Neither Should You.

## Upgrade to increased productivity and security

While your Zebra devices are working as usual, technology advancements continue to offer you more opportunity to work smarter, faster and better compete in an ever-changing marketplace.

### Boost operational efficiency

Why is this refresh so important? Because your device chipset is the brain responsible for managing communications between various device components. So, support for your device chipset is crucial to improve performance and enhance security. This is more than just an upgrade. It's the path to boost your operational efficiency and productivity, as well as to leverage increased processing power, memory and bandwidth for faster access to cloud-based data and applications.

### What's New

- **Faster processing** + more memory
- Next-gen solutions **leveraging AI**
- Better connectivity (**Wi-Fi 6 and 5G**)
- **Private 5G/LTE support** = consistent performance and reliability
- Citizens Band Radio Service (**CBRS**)
- **Increased security** and greater range
- Better app performance and multi-tasking = **more productivity**
- Support up to **Android 16** (and greater)

### No Upgrade: What's at Stake?

Customers with Zebra OneCare Maintenance Plans will stop receiving **LifeGuard** security fixes and new features

Missing an important opportunity to reduce operating costs

Slowing your pace, which may result in falling behind your competitors

Losing compatibility with fast advancing technology

### Upgrade Payoffs: What You Get

Customers with Zebra OneCare Maintenance Plans will continue to receive **LifeGuard** timely fixes and new features. This provides constant security and control to keep your devices and your business secure and protected—the confidence you need to navigate a world full of cyber threats.

- Convenient and secure user login to shared mobile devices with Identity Guardian
- Simplified operations with one device for multiple use cases
- Significantly fewer lost devices with Device Tracker, Intelligent Cabinets or Zebra Account Management System (ZAMS)
- Less downtime with new devices that require less frequent repairs

- New technology features that empower your workforce to complete tasks faster and more efficiently
- Improved customer and employee satisfaction
- The path to continuous business growth and success

- Support for up to Android 16 (or greater)
- Compliance with Google mandate that new apps on the Playstore must target API Level 13 (Android 13) or higher

# Embrace the Future Now

Here are your options for more productivity

Platform	End of Lifeguard Service	New Product Upgrades																
		2024				2025				2026								
		Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4					
SD430 (8937)	<b>TC20</b> 	TC22 															 Touch Computer - All Touch Devices	
SD430 (8937)	<b>TC25</b> 	TC27 																
SD650 (8956)	<b>TC51</b> 						TC53 											
SD650 (8956)	<b>TC56</b> 						TC58 TC58e 											
SD650 (8956)	<b>TC70x</b> 												TC73
