Stackability

Top Runner PR discounts are stackable with Performance Partner discounts and your current PR discounts.

Discounts cannot be combined or stacked with Price Exception (PE) discounts.

Other

PRs with orders that have shipped or are in won-or-closed status are not eligible.

Orders quoted and placed on existing PRs will only have promotional pricing applied during the initial validity period of the PR.

If an order is placed two weeks before the end of the current promotion but the distributor does not have inventory to ship within the promotional period and the SKU is no longer part of the upcoming Top Runner PR promotion, Honeywell will honor the current Top Runner PR discounts for 60 days following the end of the current promotional period. The distributor must demonstrate the date the reseller P/O was placed, and that product is on backorder with Honeywell. If a qualifying order

is not shipped within 60 days of the end of the current promotion, a PE can be requested to match promotion pricing subject to the usual PE approvals.

Any claims related to this rebate must be submitted a maximum of 30 days following the expiration date of the original PR.

Rebate credit will be processed and issued as part of the agreed claims process with the distributor.

Standard lead times apply to orders for devices.

Account must be current and in good standing to participate.

Standard terms and conditions of your distribution agreement and the Project Registration Policy apply.

All prices related to this promotion are in USD.

Honeywell has the right in its sole discretion to change, modify, or cancel the promotion at any time without notice to you.
