Key benefits

Top-tier scanning for demanding workflows

 Operators can effortlessly read all barcodes, including common 1D codes and 2D symbologies, and digital barcodes on mobile screens. The advanced **Megapixel sensor** and Datalogic's precise aiming system ensure fast, accurate scans.

Lower support costs, seamless deployment

 Workforce can easily **Plug & Play** the device, which integrates smoothly with all major **POS, EHR, industrial PC, and host systems**. No need of endless calls or support costs, workers benefits from a simplified configuration, experiencing fewer IT interventions and a **faster ROI**.

Unmatched durability & all-day performance

 Operators can count on 24/7 reliable performance **up to 10 millions actuations**, while reducing downtime with easy and reliable **wireless charging** on cordless models. This technology avoids broken charging contacts, reducing maintenance and total cost of ownership.
