What sets us apart

Over 40 years of innovation

With a long history focused on collaborative solutions that increase productivity, Logitech is a trusted global brand you can depend on for design and innovation. Our video collaboration solutions work seamlessly with Microsoft Teams to give everyone the choice and flexibility to connect, create, and collaborate from anywhere.

Global reach

Our footprint extends globally, including Logitech, Logi G, Streamlabs, and Ultimate Ears Pro.

- Availability in 100+ countries
- Global manufacturing and supply chain with a network of value-added resellers, system integrators, and other channel partners
- 14 local support sites around the world

Choice and flexibility

We enable rich collaboration through solutions that are easy to use and intuitive for users, while providing everyone the choice and flexibility to connect, create, and collaborate from anywhere.

- Range of solutions for every workspace, from phone booths to boardrooms
- Certified with the leading video conferencing platforms and features you already use.
- Flexible design and configuration to meet the specific needs of any space

Designed for sustainability

Contribute to your company's sustainability goals with us. We are dedicated to reducing environmental impact with every design decision, from the moment raw materials are sourced to end-of-life considerations.

- All CollabOS devices are made with Next Life Plastics
- We use fabric made with recycled plastic materials whenever possible
- Our all-in-one video bars require fewer devices to operate as a room solution, and can draw less power compared to room systems with an external compute
- We deliver ongoing updates and additional capabilities via software, extending the life of every device

Hardware

Conference cameras and video bars

Enable all types of spaces — meeting rooms, open collaboration spaces, and more — with powerful and intelligent video conferencing devices to better engage and collaborate with participants wherever they are. Our trusted video collaboration solutions are compatible with popular platforms like Google Meet, Microsoft Teams, and Zoom.

Rally Bar

Logitech's premier, all-in-one video bar for medium and large rooms. Brilliant optics, powerful audio, and remarkable simplicity set a new standard for video collaboration. Deploy in USB or appliance mode.

Rally Bar Mini

Simplicity meets versatility with Rally Bar Mini, Logitech's advanced all-in-one video bar for small and medium rooms. Deploy in USB or appliance mode.

Rally Bar Huddle

Logitech's premium all-in-one video bar for huddle rooms and small meeting rooms. Rally Bar Huddle is designed to deliver equitable video conferencing meetings with ease. Deploy in USB or appliance mode.

Rally AI Camera Pro

Rally AI Camera Pro is a PTZ camera built for larger, more complex spaces. Featuring a dual-camera system with 15x hybrid zoom and AI-powered RightSight 2 framing, it delivers crystal-clear, equitable video. Simple integration with modular audio systems and occupancy insights enables smarter, more connected, and automated meeting experiences.

Rally AI Camera

Rally AI Camera delivers brilliant optics in a discreet, low-profile design. Its one-inch sensor and AI-powered RightSight 2 technology intelligently focus and frame participants so everyone is seen clearly. Seamless audio integration and flexible wall or in-wall mounting create a subtle, professional presence in any meeting space.

Hardware

Rally Plus

Power meets flexibility with Rally Plus, Logitech's video conferencing system for extra-large rooms. Rally Plus features an ultra-HD PTZ camera, modular audio, and AI-driven performance. Expandable up to seven mic pods for even greater coverage.

Rally Camera

Rally Camera is a premium standalone USB camera that delivers brilliantly sharp video at resolutions up to 4K, perfect for medium to large meeting spaces. Rally can be used with third-party solutions or as a secondary camera in larger team workspaces and auditoriums.

MeetUp 2

Upgrade your small meeting rooms with MeetUp 2, an AI-powered USB conference camera for small spaces and huddle rooms that simplifies the meeting experience for employees and IT. Deploy with an in-room PC or in BYOD mode. For single cable connection, see Active USB Cable below.

Sight

Working in tandem with Rally Bar or Rally Bar Mini, Sight extends coverage in larger rooms to give each remote participant a better front-and-center experience. Powered by AI, Sight automatically identifies and frames speakers for a better remote experience.

Scribe

Effortlessly share whiteboards into video meetings with Scribe, an AI-powered whiteboard camera. With built-in AI and a custom lens, Scribe broadcasts whiteboard content into video meetings with outstanding clarity. Easily start sharing with the wireless button or the Tap touch controller.

Hardware

All-in-one collaboration display

Rally Board 65

Everything you need to quickly add video to meeting rooms and open spaces. Experience all-in-one video conferencing that combines crystal-clear video, powerful audio, and AI-driven features, all integrated into a single 65-inch touchscreen.

Rally Board 65 for open spaces

Rally Board 65 with table stand (included)

Rally Board 65 wall mounted

Designed for flexibility, Rally Board 65 provides multiple mounting options, allowing camera placement above or below the screen to maintain natural eye contact in any space. Mount it on a table or credenza with the included table stand, mount it to a wall with a standard VESA mount, or place it on a mobile cart and move it as needed. As a bonus, Rally Board 65 Cart allows you to easily flip the Rally Board 65 to reposition the camera on top or on the bottom based on the needs of your space.

Hardware

Touch controllers and compute

Deliver one-touch join, calendar integration, easy content-sharing, and a consistent experience across all rooms.

Tap IP

The Tap IP touch controller uses a single Power over Ethernet connection for one-touch join and easy content-sharing. Clean cabling and multiple mounting options ensure a professional install. Included with room solutions that use IP-connected touch controllers.

Tap

The Tap touch controller delivers one-touch join and easy content-sharing with clean cabling and multiple mounting options for a professional install. Included with room solutions that use USB-connected touch controllers.

Tap Scheduler

This purpose-built scheduling panel for meeting spaces indicates availability and displays meeting details. Claim the space for ad hoc meetings, or schedule sessions. Cable management and included mounts allow for a professional install and fast deployment.

RoomMate

CollabOS appliance for supported conference cameras and room solution peripherals

This compute was purpose-built for video collaboration. RoomMate runs CollabOS, which allows you to easily deploy Microsoft Teams Rooms on Android™, Zoom Rooms Appliances, and other leading video conferencing platforms. RoomMate can even power digital signage in rooms or around the office*, and power wayfinding on interactive maps with Logitech View.*

*Additional service license required.

Docking stations

Logitech enables the same seamless audio and video experience from any workspace, including focus rooms and flex spaces.

Logi Dock Focus Room Kit

Video conferencing solution for focus rooms with single-cable simplicity.

Logi Dock Flex

Docking station that enables easy and personalized desk booking for employees and simple device management for IT.

*Digital signage capabilities vary by partner.

Accessories

Accessories for cameras and video devices

Accessories for Rally Bar, Rally Bar Mini, Rally, and MeetUp that offer modular flexibility, so you can equip any team workspace with the solutions to help make meetings more equitable.

Rally Mic Pod

Modular microphones with RightSound for Rally Bar Mini, Rally Bar, and Rally.

Mic Pod Mount

Rally Mic Pod mount for tables and ceilings.

Mic Pod Pendant Mount

Rally Mic Pod Mount for rooms with tall ceilings.

Rally Mic Pod Hub

Customize mic placement for any conference table configuration.

Rally Mic Pod CAT Coupler

Extend the length of Rally Mic Pod cables by connecting Rally Mic Pod CAT Coupler to a standard CAT cable.

Rally Mic Pod Extension Cable

10 m (32.8 ft) extension cable for Rally Mic Pod.

Rally Speaker

Second speaker connects to Logitech Rally for clear, rich sound.

Wall Mount for Video Bars

VESA-compatible mounting kit for Rally Bar and Rally Bar Mini.

Rally Mount Kit

Custom mounts for a sleek installation and secure cabling.

TV Mount for Video Bars

Attach any Rally Bar to almost any display with VESA mounting points.

TV Mount for MeetUp

Mounting option for MeetUp and MeetUp 2.

Rally Board 65 Cart

A purpose-built, durable mobile stand designed for effortlessly moving Rally Board 65 around workspaces.

Expansion Mic for MeetUp

Add-on microphone with mute control for extended audio range.

MeetUp Mic Extension Cable

10 m (32.8 ft) extension cable for Expansion Mic.

Rally AI Camera Extension Kit

Extend Rally AI Camera or Rally AI Camera Pro up to 100 meters from the host device.

Accessories

Accessories for BYOD and content sharing

Enable BYOD meetings with simple, single-cable solutions—each designed for a different room setup.

Extend

Extend a single, USB-C connection to Android-based and BYOD rooms with category cabling.

Active USB Cable

Add a single cable, BYOD connection to MeetUp 2 and Rally Board 65 with this 5-meter USB-C cable.

Swytch

Extend a single cable connection to PC-based rooms with Swytch.

Tap accessories

Simplify cable management and mount the Tap touch controller in the most convenient location.

Wall Mount for Tap

Space-saving wall mount with cable management for Tap and Tap room touch controllers.

Table Mount for Tap

Swiveling table mount with cable management for Tap and Tap IP touch controllers.

Riser Mount for Tap

Elevated table mount with swivel and cable management for Tap and Tap IP touch controllers.

CAT5e Kit for Tap

Cabling kit to supply USB data and power to Tap for cleaner and simpler cable routing.

Tap Scheduler Angle Mount

Ideal for lower height placements or angled viewing. Adds 14-degree angle to the device's mounting bracket.

Accessories

Scribe accessories

With these accessories, the Scribe whiteboard camera simplifies whiteboard sharing in any space.

Scribe Glass Mount

Mount Scribe on glass surfaces.

Polarizer for Scribe

Polarizing filter to reduce glare in environments with bright lighting.

Share Button

Scribe button in white. Purple button is included with Scribe.

Compute accessories

Choose the right mount for your team workspace compute.

Compute Mount

Mounting bracket with cable retention for RoomMate and other video conferencing compute devices.

PC Mount

Mount with cable retention for mini PCs and Chromeboxes.

Software

Unlock the full potential of your workforce and workspace with Logitech software solutions. From remote device and space management, to powering updates and integrations, to real-time data and actionable insights, our software helps IT save time and effort, enhances meeting experiences, and helps you get more out of your collaboration devices.

CollabOS

The unifying operating system running on select Logitech video collaboration devices, enabling device features and partner platform integrations.

Sync

The remote workspace management software supporting video conferencing device management. Sync also provides device and room insights and management of room and desk booking.

Tune

The end-user software that shows personal device status and enables employees to customize select peripherals. Tune is also the interface for end-user desk booking.

Simplify device management

Remotely manage devices through Logitech Sync. Configure, monitor, and update devices with greater control and visibility. Activate tools like Sync Remote UI Access and proactive issue alerts for fast resolution.

Manage spaces with ease

From meeting rooms to shared desks, you can simplify space management and enable employees to find and book rooms and desks for more engaging and collaborative days onsite.

Get more out of your devices

Watch your devices get smarter through regular updates that add advanced features, enable compatibility with partners like Microsoft Teams, Zoom, and Google, and unlock integration with other Logitech devices.

Services

Ensure your video collaboration solutions are always ready and operational when your teams need them. Logitech services help to increase uptime and reduce the burden on IT. (Note: Logitech Select and Essential are available for both rooms and flex desks.)

Logitech Select

Logitech Select is a comprehensive service plan that delivers reliability, continuity, and peace of mind for the enterprise. Rest easy knowing you have access to ultra-responsive 24/7 support, a designated Service Manager¹ for focused technical assistance, onsite spares¹ and accelerated RMAs for up to five years. Logitech Select also includes all premium software features of Logitech Sync, including Sync Remote UI Access, insights, and room and desk booking.

¹ Available with purchase of a service plan for 50+ rooms.

Logitech Essential

Logitech Essential is a service plan that includes advanced software tools to help you manage your spaces and Logitech devices efficiently. Get access to all premium features of Logitech Sync, including insights on space and device usage; automated alerts for equipment failures through an integration with ServiceNow²; comprehensive remote device management tools; and the ability to set up desk or room booking to help employees find the best space for their needs.

² Requires ServiceNow license.

Extended Warranty

With an extended warranty,³ your Logitech purchases are protected against defects for up to five years from the purchase date. Extended warranties are available for either one year or three years beyond the original Logitech manufacturer's limited two-year warranty.

³ Terms and conditions apply. Not available in all countries. Contact your reseller.
