KIOSK MARKET IS EVOLVING

- Technology companies are moving away from their own built and designed Kiosk mounts, as the market is asking for more flexibility.
- Technology companies focus on their core and rely on trusted partners for peripherals
- New players are entering the kiosk space
- All-in-one units including Soft POS becomes part of Kiosk offerings
- Need for global options as availability is key
- Great run rate and project opportunities

WHY CHOOSE A SPACEPOLE MINI KIOSK?

- **Technology agnostic:** Ability for customers to utilize current POS products and software for self service applications.
- **Flexibility:** The same SKU to fit multiple brands and models of screens and printers.
- **Fully upgradeable:** To match customer preferences for additional peripherals: payment, scanner, camera, light indicators, backer board and more.
- **Future proof:** Possible to upgrade technology later on with a minimum of parts affected.
- **5 year warranty:** Our products come with a comprehensive 5-year warranty, ensuring long-term reliability and peace of mind.

SPACEPOLE MINI KIOSK MOUNTING OPTIONS

WALL MOUNTED

The Wall Mounted SpacePole Mini Kiosk is the perfect space-saving self-service solution, ideal for environments with limited floor space. With standard support for screens up to 27" and printer peripherals, for self-check-in, self-checkout, self-ordering, or product displays. Keep operations running smoothly while providing customers with a hassle-free experience.

SPK402-02

COUNTER MOUNTED

Designed for countertop placement, the SpacePole Mini Kiosk offers easy, accessible interactions for customers while maximizing space efficiency. Seamlessly integrates with screens up to 27" and printers as standard with optional payment integration, enabling fast transactions, smooth check-ins, and effortless order processing - helping businesses enhance service and keep customers moving.

SPK401-02

FLOORSTANDING

The Floorstanding SpacePole Mini Kiosk is designed to keep customers moving with quick, hassle-free interactions in busy environments like grocery stores, airports, and entertainment venues. Supporting a variety of screens and peripherals, it adapts to your needs whether it's for self-ordering, ticketing, or checkout applications - helping businesses reduce queues, improve service, and enhance the overall customer experience.
