spectralink

Quality Manufacturing and Rugged Designs

- 7502 handset high quality production
- Li-ion battery holds up to frequent charge cycles
- Painted keys in consumer products vs. double molded lettering (rugged & long lasting)

Significantly reduce RMA costs with enterprise-grade

spectralink

Zero Touch Provisioning

- Zero Touch Configuration & Provisioning (via redirection service)
- Auto download config files
- OTA firmware updates and user config details to devices
- Enterprise-grade secure web interface for configuration option

Reduced administration & manageability costs with simplified deployments

spectralink

Interoperates with All Major Call Control / UC Platforms

One solution for all SP UC/UCaaS Service Offers

- Support customers migrating from on-premise systems to UCaaS

Skype for Business

NEC

MITEL

digium
Switchvox

Alcatel·Lucent

usoft AVAYA broadsoft CISCO ShoreTel

spectralink

Comprehensive Warranty, Service and Support

- Standard warranty includes software updates, RMA exchange
- Spectracare service options for higher level technical support through Spectralink's global service organization.

Improve customer service and lower support costs

spectralink

Value Added Features

- Using 3rd party solutions:
- Broadcast message to 1 or groups
- "Fire Alarm" to tell staff to leave building. Legally required but not available in any competitor SOHO solution.
- Vibrate option
- ECO mode for low power usage
- Integration with corporate centralized address books (LDAP)
- Support for 14 languages
- Quarterly firmware enhancements
- Support for UCaaS security (TLS 1.2)

Differentiate your services with added capabilities

spectralink

- ✓ Delivers best in class infrastructure and wireless handsets for hosted environments

- ✓ Quality and scalability to serve Micro-SMB to Enterprise customers
