# Unleashing Productivity On the Move
EMBRACING YEALINK MOBILITY SOLUTIONS
FOR SEAMLESS COLLABORATION ANYWHERE, ANYTIME

Mobility solutions are experiencing significant market demand in North America because of the hybrid work trend. The global unified communication market, including mobility solutions, was valued at around $36 billion in 2020 and was projected to grow at a compound annual growth rate (CAGR) of over 10% from 2021 to 2027.

EXPERIENCING THE PAIN POINTS WHEN FINDING YOUR BEST MOBILITY SOLUTIONS?

Device Compatibility and Fragmentation	User Adoption and Training	Security and Data Privacy	Integration Challenge

Yealink has full-range products to address these pain points, with a focus on usability, compatibility, reliability, security, and ongoing support, and still keeps resulting in a more effective and satisfying unified communication mobility product experience.

INTRODUCING YEALINK MOBILITY SOLUTIONS

BROAD INTEGRATION AND COMPATIBILITY
Yealink has established cooperation with over 80 international mainstream communication platforms to bring a better experience and more choices to customers.

COMPREHENSIVE PORTFOLIO
From IP phones and video conferencing systems to collaboration panels and headsets, Yealink provides reliable and feature-rich solutions to facilitate seamless communication and collaboration in the modern workplace.

PRO AND SIMPLE
3 steps to get ready for your meeting

- Plug in a power cord.
- Plug in an HDMI cable.
- Plug in a network cable.

ONE PLATFORM TO MANAGE ALL DEVICES
- Yealink provides a powerful device management platform to support a hybrid workplace, which is Yealink Management Cloud Service (YMCS).
- Users can effortlessly manage all devices in hybrid workplaces on the cloud.
- YMCS allows people to deploy, upgrade, monitor, and troubleshoot devices easily and timely, ensuring business continuity to the maximum extent.

TOP SECURITY ACCREDITED
- At the company level, Yealink is accredited by the most stringent internationally recognized standards.
- Yealink Certified products: meet the hardware security criteria set by Microsoft Teams and ZOOM.
- Yealink Management Cloud Service: Enhanced data security with Microsoft Azure-based service.
