# HOW TO SPEC:
## AZARA

**Version 1.0**

**ZEBRA**

**Azara – Service Description**

• **Zero-touch provisioning - AP calls home Azara cloud and downloads the configuration**

• **Security - No user data passes through the cloud**

• **Site survivability - APs continue to operate with full functionality even when there is loss of connectivity to the cloud infrastructure**

• **Technical support – 24x7 Included in the Azara subscription**

• **Nsight platform network analytics built-in**

• **SLA warranty – 99.99% service availability of the Azara cloud infrastructure; certain exclusions apply**

**\*Site survey may specify components and antennas that better suit the wireless environment.  Antenna Specification Guide**
