

AMG260 SERIES INDUSTRIAL MEDIA CONVERTER

WITH OPTIONAL 30/60/90W POE OR PD

Industrial Ethernet Solutions

AMG's media converters provide 1 or 2 ports of multirate 100Mb/Gigabit Ethernet uplink over fiber via 1 or 2 SFP ports with optional 30W or 60/90W PoE or PD. Additional features are supported by user-configurable DIP switches for advanced functionality including redundant SFP uplinks etc.

OVERVIEW

Designed in a compact DIN rail or wall mount housing, the AMG260 series media converters are ideally suited for connecting equipment to Ethernet networks over long distances using all types of fiber through the integrated 1 or 2 SFP ports. Fiber connectivity is determined by separate SFP device selection, providing application and site flexibility.

Available in both non-PoE models as well as PoE models for IEEE802.3at 30W or IEEE802.3bt 60/90W they are suitable for powering the latest high powered PoE devices over a wide industrial operating temperature range. PoE PD powered models are also available for installation in locations without any local power.

User selectable DIP switches allow for configuration of the intelligent link fault pass-through feature for remote end failure detection as well as remote device reset to allow end device reboots from the control room and dual redundant SFP uplinks which can provide fail over resilience in the event of a fiber route failure.

A wide range of models are available to suit all design requirements and are fully compatible with all of the AMG250/260B/260M model ranges.

FEATURES

- Compact size – ideal for confined spaces, including camera housings and roadside cabinets
- -40°C to +75°C temperature maintains performance in extreme conditions
- DIN rail or wall mountable - quick to install and remove for maintenance (an optional magnetic mount is also available)
- All SFP ports are multirate 100Mb/Gigabit – support single and multimode, single or dual fiber options up to 120Km
- DIP switch selection of link fault pass-through, remote device reset and redundant SFP uplink etc.
- Supports optional 15W, 30W, 60W and 90W PoE
- Auto-Negotiation (802.3u) – automatically determines the best connection speed
- Designed in the USA & UK. Manufactured in the United Kingdom
- AMG Lifetime Support Warranty
