## **New Touchscreen Monitors for Healthcare**

### **Product Information**

We are pleased to announce the Elo 03-Series of Touchscreen Monitors designed for use in healthcare environments. The product line includes four sizes – a 19-inch square aspect ratio display, and 22, 24 and 27-inch wide aspect ratio displays. With a compact form factor and clean design for easy integration, the 03-Series monitors are well-suited for point-of-sale, point of information, signage and hospitality applications. Additionally, the 03-Series offers compliance with the IEC 60601-1 standard and an IP54 rating to support use in healthcare settings.

## Brilliant Displays from 19 to 27-inches

The clear glass touchscreens with Elo's industry-leading TouchPro PCAP technology offer wide viewing angles with excellent image clarity, resolution, and light transmission for accurate touch response and vivid images. With up to 10 touches enabled, the 03-Series Monitors provide a tablet-like experience.

## Get a handle on it

Some healthcare applications require a display with flexibility of movement to support the appointment/check-up with a patient. With handles connected to the monitor, a physician can easily change the display orientation.

---

## Mount with Flexibility

Delivering a seamless experience from patient check-in to check-out is important, so monitor placement matters. The monitors can be mounted on a stand or any mount compatible with VESA configuration - allowing integrators to meet the IT monitor placement requirements demanded by healthcare providers.

## Connections

**HDMI**

**VGA**

**Integrated Speakers  
(HDMI or Line-In)**

**USB 2.0**

**Touch USB**

## The Elo Advantage

### Customization

Elo offers customized solutions with everything from slight modifications to ground up designs. If you need something customized.

### Global Reach

Elo products are distributed and available across the globe. Every 21 seconds, an Elo touchscreen is installed somewhere.

### Long Life Cycle

We minimize unnecessary design changes, and we've kept some monitors available to order for over seven years.

## Built-to-Last

The 03-Series Touchscreen Monitors deliver the quality and reliability Elo is known for and are backed by our 3-year standard warranty with an optional extension to 5-years. We design and build the complete solution, with touch integrated from the start.
